## ICOM International Committee on Ethical Dilemmas (IC ETHICS) Virtual Colloquium in collaboration with On Possible Futures Project

# ETHICAL CHALLENGES OF CONTEMPORARY COLLECTING

12 December 2020: 11:00 PST / 14:00 EST / 20:00 CET / 21:00 SAST

13 December 2020: 6:00 AEDT / 8:00 NZDT

How can museums work ethically and responsibly with their communities during contemporary collecting initiatives? How have museums been adapting their practices to respect the dignity of the groups they intend to serve during their collecting or deaccessioning efforts? What ethical considerations do museums need to have during a state of urgency in a time of crisis? These are some of the important questions we want to discuss during our first annual conference.
